

School Land Trust Program

At ThrivePoint Academy of Utah, our Community Council brings together parents, teachers, and administrators to actively shape the direction of our school. This group plays a vital role in determining how resources are used and which priorities guide our work. With funding from Utah's Land Trust, the council ensures that investments directly enhance student learning and reflect our dedication to helping every student succeed.

At its heart, the council strengthens partnerships between families, educators, and the wider community, building the connections and opportunities students need to grow academically, socially, and emotionally.

If you are interested in joining this community council for the upcoming school year, please reach out to Jasmin Zures at jasmin.zures@thrivepointutah.com

School LAND Trust Program

In the state of Utah, monies from school trust lands are distributed to every public school through the School LAND Trust Program. ThrivePoint Academy of Utah has a School LAND Trust Committee whose responsibilities include creating and approving the School LAND Trust Plan each year which identifies an academic need and a proposed solution using the annual funds. The committee is an advisory body that may be comprised of parents, teachers, and administrators. All School LAND Trust Committee actions and plans are overseen and approved by the Governing Board of Directors. School LAND Trust Committee members are willing volunteers who care about the success of students and overall school improvement and Quest Academy is grateful for their time and dedication.

The School LAND Trust Committee meetings are open to the public. Agendas and minutes are posted on the Community Council page. The council will utilize and follow the School LAND Trust Committee Rules of Order and follow a pre-determined agenda. For more information about the School LAND Trust Program, visit [ThrivePoint Academy of Utah Reports](#).

Funding: 25- 26 school year \$54,610.88
